9/25 - the growth became small, no more pain, defecate moderately watery stool twice a day (once in the morning and once at night).

9/27 - diarrhea stopped, bowel movement went back to normal, growth became very small almost not noticeable anymore.

Is there any improvement after treatment? YES

- O V E R -

CASE # 012A

PT's INITIAL : MJC

PT's SEX: Female

PT's AGE: 45

PT's COMPLAINT: Chronic Sinusitis, Vertigo and maintenance of curing boils

MED.Hx:

CURRENT Dx: Sinusitis and Vertigo attack

## PROCEDURE:

Power setting: 4

1st Pos. of Probe : 5 min. x 2

2nd Pos. of Probe : 5 min.

3rd Pos. of Probe : 5 min.

4th Pos. of Probe : 5 min.

5th Pos. of Probe : 5 min.

Schedule of Treatment : Every other day for two weeks. Maintenance of once a week.

Total no. of treatment given : 8

Date as follows : Oct. 7, 9, 11, 14, 16, 18 then 22 and 29

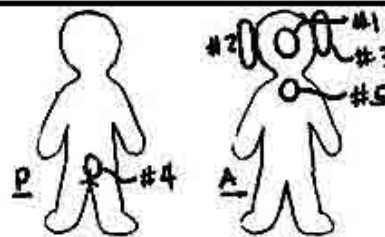

Results of treatment :

10/9 - Sinusitis - difficult to breathe thru the nose at night esp. if the room is air conditioned, most of the time, she breathes thru the mouth, now the more clogs is experienced in the nose, more tissue were used, still very teary eyes. Vertigo - is better. She doesn't feel dizzy anymore but she has vomiting and bloating. Boils - very small but it's hard.

10/11 - Sinus - is better. There were lots of secretion, still with use of some tissues, can breathe better thru the nose. Vertigo - also better, no more dizziness just feeling of vomiting. Boils - still very small but hard.

10/14 - Sinus - has improve a lot. Used up only two ply of tissues for the whole day. No aura of vertigo attack for the past few days, no more teary eyes. Boils - still the same.

10/16 - Same as above dd 10/14/96

10/18 - Sinusitis free. No more teary eyes nor tissues used. Still sneeze for sometime but nose not clog anymore. Can go anywhere without carrying handy tissues.

10/22 - Went for maintenance because sinusitis recurred this morning. Vertigo totally gone.

10/29 - Sinus is already okay. No more vertigo. Treatment just for maintenance.

Is there any improvement after treatment? YES
